Summary

Data Scientist with 5 years of experience in machine learning, NLP, and data pipeline engineering. Built production ML models for recommendation systems and fraud detection. Skilled in Python, TensorFlow, and cloud-based ML platforms.

Work Experience

Senior Data Scientist — InsightAI Labs

2021 – 2024 (3 years)

Built a real-time fraud detection model using XGBoost and LSTM achieving 98.5% accuracy. Developed NLP pipeline for customer sentiment analysis across 5 languages. Deployed models on AWS SageMaker serving 10M+ predictions/day.

Data Scientist — RetailMind Analytics

2019 – 2021 (2 years)

Created product recommendation engine using collaborative filtering and matrix factorisation. Built data pipelines using Apache Spark and Airflow. Visualised insights using Tableau and Power BI for business stakeholders.

Technical Skills

Languages: Python, R, SQL, Scala

ML / AI: TensorFlow, PyTorch, scikit-learn, XGBoost, Hugging Face, LangChain

Data Engineering: Apache Spark, Airflow, Kafka, dbt

Cloud & Tools: AWS SageMaker, GCP Vertex AI, Jupyter, MLflow, Docker

Education

M.Tech Data Science — IIIT Hyderabad

Data Science & AI | 2019

B.Sc Mathematics — Pune University

Mathematics & Statistics | 2017

Certifications

- TensorFlow Developer Certificate — Google (2022)
- AWS Certified Machine Learning – Specialty — Amazon Web Services (2023)
