

Rahul Gupta

Backend Engineer — Java & Microservices

rahul.gupta@example.com | +91 91234 56789 | Bangalore, India

LinkedIn: linkedin.com/in/rahulgupta

Summary

Backend Engineer with 8 years of expertise in Java, Spring Boot, and microservices architecture. Experienced in designing highly available distributed systems for fintech and e-commerce domains. Strong background in Kafka, Docker, and AWS.

Work Experience

Lead Backend Engineer — PayFast India

2020 – 2024 (4 years)

Designed and built payment microservices handling 2M+ transactions daily. Implemented event-driven architecture with Apache Kafka. Optimised PostgreSQL queries reducing p99 latency from 800ms to 120ms.

Backend Developer — ShopEase Technologies

2016 – 2020 (4 years)

Developed REST APIs using Spring Boot for an e-commerce platform with 500K daily users. Worked on inventory, order management, and notification services. Containerised services with Docker and deployed on AWS ECS.

Technical Skills

Languages: Java, Kotlin, SQL, Python (scripting)

Frameworks: Spring Boot, Spring Cloud, Hibernate, gRPC

Databases: PostgreSQL, MySQL, Redis, MongoDB

DevOps & Cloud: Docker, Kubernetes, AWS (EC2, RDS, SQS), Apache Kafka

Education

B.Tech Computer Science — IIT Roorkee

Computer Science | 2016

Certifications

- AWS Certified Solutions Architect – Associate — Amazon Web Services (2022)
- Spring Professional Certification — VMware (2021)
